LOADER SERIES
装载机系列

HW-916 LOADER

装载机是一种广泛应用于公路、铁路、建筑、水电、港口、矿山等建设工程的土石方施工机械。 主要用于铲运土、沙、石灰、煤等散装物料, 也可用于矿石、硬土上的轻型铲运作业。 具有工作速度快、效率高、机动性好、操作轻便等优点。

Loaders are earthwork machines widely used in construction projects such as roads, railways, buildings, hydropower, ports, and mines. They are mainly used to shovel bulk materials such as soil, sand, lime, and coal, and can also be used for light shoveling operations on ores and hard soil. They have the advantages of fast working speed, high efficiency, good maneuverability, and easy operation.

技术参数
Machine detailed parameters

HW-916		
整车尺寸 Vehicle size	4300*1300*2000	mm
卸载高度 Unloading height	2.4	m
整车重量 Vehicle weight (t)	1.42	T
发动机型号 Engine model	单缸 Single cylinder	
马力 Horsepower	25	
发动机功率 Engine power	18.5	kw
变矩器 Torque converter	Manual transmission	
车桥 Axle	130 油刹 Oil brake	
轮胎 Tire	750-16	
铲斗宽度 Bucket width	1300	mm
额定斗容量 Rated bucket capacity	0.3	m^3
额定转载量 Rated load capacity	500	kg
卸载距离 Unloading distance	700	mm
转向角度 Steering angle	30	°
轮距 Wheel base	1300	mm
轴距 Wheelbase	1770	mm

HW-926 LOADER

装载机是一种广泛应用于公路、铁路、建筑、水电、港口、矿山等建设工程的土石方施工机械。 主要用于铲运土、沙、石灰、煤等散装物料, 也可用于矿石、硬土上的轻型铲运作业。 具有工作速度快、效率高、机动性好、操作轻便等优点。

Loaders are earthwork machines widely used in construction projects such as roads, railways, buildings, hydropower, ports, and mines. They are mainly used to shovel bulk materials such as soil, sand, lime, and coal, and can also be used for light shoveling operations on ores and hard soil. They have the advantages of fast working speed, high efficiency, good maneuverability, and easy operation.

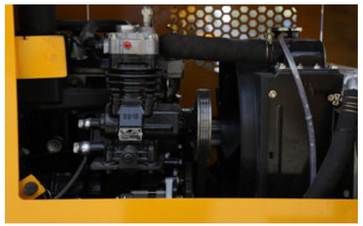

技术参数
Machine detailed parameters

HW-926		
额定载重 Rated load	1.2	T
发动机型号 Engine model	徽柴 Huichai 490	
发动机功率 Engine power	42	kw
变速箱 Gearbox	机械 Mechanical	
车桥 Axle	五十铃桥 Isuzu Axle	
最大卸载高度 Max. dumping height	3.2	m
铲斗宽度 Bucket width	1.8	m
铲斗容量 Bucket capacity	0.6	m^3
轮胎 Tire	20.5-16	
外形尺寸 Dimensions	5400*1700*2700	mm
整车重量 Vehicle weight	3000	kg

HW-928 LOADER

装载机是一种广泛应用于公路、铁路、建筑、水电、港口、矿山等建设工程的土石方施工机械。 主要用于铲运土、沙、石灰、煤等散装物料，也可用于矿石、硬土上的轻型铲运作业。 具有工作速度快、效率高、机动性好、操作轻便等优点。

Loaders are earthwork machines widely used in construction projects such as roads, railways, buildings, hydropower, ports, and mines. They are mainly used to shovel bulk materials such as soil, sand, lime, and coal, and can also be used for light shoveling operations on ores and hard soil. They have the advantages of fast working speed, high efficiency, good maneuverability, and easy operation.

技术参数

售后服务
AFTER-SALES SERVICE

24小时热线

24-hour hotline

您有任何需要，只需要拨打 24 小时售后服务热线 400-9975-666。

If you have any needs, just call the 24-hour after-sales service hotline 400-9975-666.

15分钟回复

15 minutes to reply

接到售后需求后，售后服务工程师将主动和您取得联系，向您了解设备情况和服务需求，通过电话，微信视频等远程指导处理问题。

After receiving after-sales needs, the after-sales service engineer will take the initiative to contact you to understand the equipment situation and service needs, and provide remote guidance to solve problems through telephone, WeChat video, etc.

24小时出发

24 hours departure

若电话指导无法处理好故障，服务工程师在 24 小时内携带维修工具出发，前往设备所在现场，进行现场维修服务。

If the telephone guidance cannot handle the fault well, the service engineer will set off with the maintenance tools within 24 hours, go to the site where the equipment is located, and perform on-site maintenance services.

重大情况处理

Handling of major situations

重大和特别情况，服务体系将启动快速反应机制、专家支持机制和配件绿色通道。

In major and special circumstances, the service system will start a rapid response mechanism, an expert support mechanism and a green channel for accessories.video.

电话回访

Telephone return visit

现场服务完工后，公司总部呼叫中心将有服务专员对每次服务进行电话回访，跟踪完成情况和服务质量，听取客户意见和建议并反馈到各职能部门进行落实和改善，以便为客户提供更优质的售后服务。

After the on-site service is completed, the call center of the company's headquarters will have a service specialist to conduct a return call for each service, track the completion status and service quality, listen to customer opinions and suggestions, and feed back to each functional department for implementation and improvement, so as to provide customers with better quality.
